

George K. Staropoli, unsolicited testimonials (2003 – 2024)

- ❖ SC (CAI attorney): “George Staropoli believes he’s leading a revolution.... To him, this is a struggle against tyranny. And he uses that word all the time.” (2006).
- ❖ WL: “His knowledge is sophisticated . . . [Staropoli] has been able to articulate the deficiencies and the pending bombshells contained in the Legislature’s denial of the obvious: that the HOA system is badly broken and in desperate need of an overhaul.” (2012).
- ❖ BC: Thanks for this refreshing article reminding all American citizens of the necessity to take a stand to understand and defend the cherished principles of the US Constitution and Bill of Rights. You, sir, are of the same character as the signers of our sacred documents of freedom which all who fought and died to preserve believed in. You are the good teacher!
- ❖ YK: You are a beacon of light for Truth and Justice in the darkness of the HOA Unconstitutional Governance. May God bless you and protect you.
- ❖ PP: I bought your book, *Establishing the New America*, last week and have read it cover to cover twice already. Thank you for all you have put together over the years. I am 78 and I thought I knew a lot but after reading your book, I have realized that there is much more to learn. You reference the 14th Amendment in the book in many places.
- ❖ RS: George Staropoli you have been a great educator to the rest of us. I have learned so much from you and how to fight the unconstitutional battles we all fight. Thank you for all your information!!! I will fight to the end!
- ❖ AK: I am stunned at your ability to cohesively write in such a persuasive manner, citing works and laws in regards to these issues over all these years. Most importantly, I am so very grateful someone can use their skills for this purpose.
- ❖ DB: “George Staroli [sic] has the best insight into how HOAs operate and how to beware of what truly goes on. This book [*HOA Constitutional Government*] is a must read for every buyer thinking of buying into an HOA or an owner at an HOA. Mr. Staropoli [sic] is a strong supporter and advocate for homeowner’s rights”.

- ❖ CK: “I’ve known of and been a follower of Mr. Staropoli’s writings for many many years. What a gift this book [*HOA Constitutional Government*] is to Americans who seek knowledge, truth, transparency and clarity!”
- ❖
- ❖ CAW: HOAs should not assume the powers of the U.S. Government and interfere with homeowners' property rights. In this book [*HOA Constitutional Government*], George gives us an abundance of information that clearly shows HOAs are mini governments that have been allowed to take over property rights. He, also, shows the need for homeowners to support and advocate for homeowners property rights. Let's take action by notifying legislators, senators, commissioners, mayors, etc. to protect our property rights. Homeowners across the U.S. are complaining of their illegal and unethical actions by HOAs and are fed up.

- ❖ MO: From those who got John Oliver to feature HOAs! Staropoli's work is inspirational, cutting deep into the heart of HOAs and how they continue to violate basic constitutional tenets. We have been following his work for some time. We hope to distribute this far and wide to educate the population about what has become of their rights.
