

## **TESTIMONIALS**

Dear Mr. Staropoli,

Thank you for your prompt response and for elucidating these points.

You are a beacon of light for Truth and Justice in the darkness of the HOA Unconstitutional Governance. May God bless you and protect you.

Thank you for your prompt response, sharing your in-depth knowledge of the field, and for the valuable references.

Sincerely,

Sincerely,

Yitzhak K.

George,

Thank you for keeping track of SO much information from SO many states. It is nice to know someone is taking the time to be involved and keep us informed. There are times I would love to sit down with you and listen to the whole unabridged story of some of these issues. Again, thank for caring!

Keith R.

Thank you for this, your continuing work and the book which I will download. You wrote, "This task of constitutional HOA reforms may appear overwhelming and almost impossible to achieve..." I am always grateful for your insights--this is very important information--when we do a "disclosure" information project (to get info to owners and to real estates transactions), this will be so important as a reference. I truly admire your work.

Thanks for this refreshing article reminding all American citizens of the necessity to take a stand to understand and defend the cherished principles of the US Constitution and Bill of Rights.

You, sir, are of the same character as the signers of our sacred documents of freedom which all who fought and died to preserve believed in.

You are the good teacher!

Barry C.

Dear George,

I bought your book, *Establishing the New America*, last week and have read it cover to cover twice already. Thank you for all you have put together over the years. I am 78 and I thought I knew a lot but after reading your book, I have realized that there is much more to learn. You reference the 14th Amendment in the book in many places.

Priscilla P.

This is just unbelievable. Thank you for researching and exposing the truth and the firms that were behind trying to block the decision from being known.

Sonia B.

Mr. Staropoli -

I am stunned at your ability to cohesively write in such a persuasive manner, citing works and laws in regards to these issues over all these years. Most importantly, I am so very grateful someone can use their skills for this purpose. I lack your abilities and am making a poor attempt at any movement in my state.

Andrea B.

George Staropoli you have been a great educator to the rest of us. I have learned so much from you and how to fight the unconstitutional battles we all fight. Thank you for all your information!!! I will fight to the end!

Raelene S.
